FromPimples to Scrofula From Infancy to Age

To those who have suffered long and hopelessly from Humors of the Blood, Skin, and Scalp, and who have lost faith in doctors, medicines, and all things human, CUTI-CURA Soap, Ointment, and Pills appeal with a force hardly to be realized. Every hope, every expectation awakened by them has been more than fulfilled. More great cures of Simple, Scrofulous, and Hereditary Humors are daily made by them than by all other Blood and Skin Remedies combined, a single set, costing but one dollar, being often sufficient to cure the most distressing cases when all else fails.

British Submarine Torpedo Boat Run

Down and Sunk by a Steamer. PORTSMOUTH .- (Special.) British submarine boat No. Al was run down and sunk off the Nab lightship Friday by a Donal Currie liner, and eleven persons were drowned, including Lieutenant Mansergh, the senior officer engaged in the submarine work. The liner passed on and reported that she had struck a torpedo.

At the time she was struck, the submarine was off the lightship engaged in the maneuvers and was lying in seven fathoms of water, waiting the approach of a battleship.

The boat was one of the newest of the fleet of submarine vessels and was built from the latest models, but she has always been a bad diver. She was inspected by both King Edward and the Prince of Wales.

The name of the Donald Currie liner which struck the submarine boat is the Berwick Castle, from East London, Bouth Africa. The loss of the boat was not known for several bours after the liner had reported to the maneuvering fleet that she bad struck a torpedo. The officers of the liner say that they saw a glittering torpedolike shape in the water and it is supposed, therefore, that the submarine boat rose just before she was struck.

happiness that I feel like making an exception in this case. For two years every month I would have two days of severe pain, and could find no relief, but one day when visiting a friend I ran across Lydia E. Pinkham's Vegetable Compound,—she had used it with the best results and advised me to try it. I found that it worked wonders with me: I now experience no pain, and only had to use a few bottles to bring about this wonderful change. I use it occasionally now when I am exceptionally tired or worn out."—Miss ALICE M. Lydia E. Pinkham's Vegetable The officers of the fleet did not suppose for a moment that the submarine had been struck and continued operations, expecting the vessel to reappear at some other point. Finally a search was made and the breaking of tho waves revealed the presence of the submarine boat.

Lydia E. Pinkham's Vegetable Compound carries women safely through the various natural crises and is the safe-guard of woman's health.

The truth about this great medicine is told in the letters from women being published in this paper constantly. There is no doubt that all members of the crew died in the steel tube. It is thought that the Berwick Castle, in striking, upset the trim of the boat and heated spells, and spilled the gasoline in the tanks, rendering her helpless. The crew was battened down and must have met death from suffocation in the absence of air and owing to the fumes of the

Derivation of Panama.

It is supposed by some that Panams derived its name from the native word for butterfly. Explorers of the interior tell of swarms of butterfiles which at times rise on slopes of the mountains in dense clouds, durkening the sunshine. Others maintain that the name is from an Indian word, meaning abounding in fish.
